

BV Commodities Reference: UKWPM-25-01343

1st July 2025

Voima Gold Oy
Bulevardi 5 A 86,
00120 Helsinki,
Finland.

In respect of the gold audit performed on 1 July 2025.

Voima Gold Oy ("Voima"), on behalf of its customers (the "Customers"), has engaged Bureau Veritas Commodities UK Limited (part of the Bureau Veritas Group) to perform an independent verification of the gold held for the Customers. The verification pertains to the gold that is held at the vault of Voima Protect Oy (the "Custodian"), on partner metal accounts, and in transit.

It is with pleasure that we submit our results to the Customers in accordance with the agreed scope of service, at the Custodian's premises, and in respect of the audit reference date on 1 July 2025.

Results: as at the close of business on 30 June 2025, the Customers held title to

Gold location	Gross Weight (grams*)
Custodian's Helsinki Vault	976,182.983
Partner metal accounts and transit	279,513.263
Total amount in locations	1,255,696.246
The Customers held title to	1,255,696.246

*The weight refers to the amount of 999.9 gold in the calculated assets.

Audit procedure

1. The records of Voima were reconciled to the Customer records provided to verify that the gold was held in the name of the applicable account at the agreed audit reference date (the agreed close of business totals).
2. The total weight of the gold recorded by the Custodian was reconciled to the records of the Customer balances as at the audit reference date.
3. Using the records provided by the Custodian, each bar was visually checked for the bar number, refiner brand and purity.
4. The attending auditor randomly picked a minimum of 2.5 percent of the total holdings to check their gross weight.
5. The attending auditor duly inspected the Custodian's scales prior to checking the gross weight. The scales used were internally calibrated in the presence of the auditor and inspected for the authoritative external calibration details. Please see below:

1st July 2025

Scales used for audit purposes

Good Delivery Bars

Make = KERN

Model = EOC 60K-3

Max = 30 kg, d = 0.001 kg

Last external calibration = 07.2024

Small Bars

Make = OHAUS

Model = PJX50202M

Max = 5200 g, d = 0.01 g

Last external calibration = 03.2023

6. The records of the weight of the pure gold held on partner metal accounts and in transit were reconciled to the record provided by the Custodian and confirmed.

Non-conformities

There were no administrative non-conformities identified in respect of the gold bars during the audit.

There were no physical non-conformities identified in respect of the gold bars during the audit.

Remarks

The audit was carried out to the best of our knowledge and this report reflects our findings as at the time and place of the audit only.

No other observations were made on the date of audit.

For and on behalf of,
Bureau Veritas Commodities UK Limited.
